[Geoff Kabush's Carson City Tire Recommendation](#)

"Carson City has a lot of loose over hard terrain, some serious climbing, and the descending has some edgy sidecut sections. I'd recommend the larger volume **2.25 Maxxis Aspen** as a great option for the course.

The **Aspen** is a lighter weight, low profile tread that rolls really well.

The larger volume of the 2.25 tire allows you to run a little lower pressure to get some better grip and confidence on the loose sections.

There are just a few rocky sections to be careful on and if you are worried about flatting I'd suggest using the EXO sidewall protection option." - **Geoff Kabush**
